<p>3:00 p.m. (10 minutes)</p> <p>Welcome/Meeting Agenda/Land Acknowledgement</p> <p>CAP Facilitator</p>	<p>Alexandra Evershed, Prospectus and CAP Facilitator, welcomed all participants, delivered a Land acknowledgement, and a safety moment.</p> <p>Note: The meeting was held virtually due to CRL's site-wide electrical shutdown.</p>
<p>3:10 p.m. (5 minutes)</p> <p>CNL Updates CNL in the News</p> <p>CAP Facilitator and CAP</p> <p>Rachelle Chennette, Senior Indigenous Engagement Officer</p>	<p>Alexandra Evershed, Prospectus and CAP Facilitator, and Rachel Chennette, Senior Indigenous Engagement Officer, provided an opportunity for CAP members to discuss recent news articles and provide insight from a community perspective.</p> <p>Questions:</p> <ol style="list-style-type: none"> 1. What exactly is changing as part of the GOCO transition? <p>Alexandra Evershed and Rachel Chennette mentioned they were going to try and get some of the new executives to present at the September CAP.</p> <p>Rachel Chennette provided a brief update on the Near Surface Disposal Facility (NSDF) Judicial Review appeal, specifically noting how CNL's appeal seeks to obtain clarity and direction on how to navigate the changing legal landscape and regulatory environments. Rachel also provided an update on the annual Swift Night event on May 28 and discussed tariffs.</p>

<p>3:15 p.m. (45 minutes)</p> <p>Sustainability Presentation & Discussion</p> <p>Dilhari Fernando, Chief Sustainability Strategy Officer</p> <p>Discussion CAP Facilitator & CAP</p>	<p>Dilhari Fernando, CNL's Chief Sustainability Strategy Officer, presented on Sustainability and ESG at CNL, highlighting key elements from the company's 2023-24 Sustainability Report and discussing key priorities for the future.</p> <p>Following the presentation, Alexandra Evershed, Prospectus and CAP Facilitator, prompted the group for questions related to Sustainability and ESG at CNL. She also asked if the group was familiar with sustainability at CNL and in the community. The group acknowledged that this was one of their first exposures to the topic and appreciated receiving information.</p> <p>Questions:</p> <ol style="list-style-type: none"> 1. How is CNL reducing waste away from landfills? Where is the waste diverted to? 2. Could CNL's waste diversion equipment possibly be used by others in the surrounding community to help them reduce or divert waste, such as Garrison Petawawa? <p>Alexandra Evershed concluded the activity/discussion.</p>
<p>4:00 p.m. (5 minutes)</p>	<p>Break</p>
<p>4:05 p.m. (10 minutes)</p> <p>ODCP Revision Update</p>	<p>Matt Waddington, Decommissioning & Environmental Specialist, provided an overview of the Overview Decommissioning and Cleanup Plan (ODCP) update and noted that some of the sustainability objectives and key performance indicators (KPIs) are pertinent to the cleanup planning and execution of the CRL site. Matt noted that the ODCP update will include more of these metrics to align with CNL's sustainability priorities.</p> <p>No questions or comments from the group on Matt Waddington's presentation. Many noted</p>

Matt Waddington, Decommissioning & Environmental Specialist	general agreement with the approach when prompted by Alexandra Evershed, Prospectus and CAP Facilitator.
