

Community Advisory Panel (CAP)  
MEETING NOTES FOR MEETING #4-2 (DRAFT UNTIL ACCEPTED)

Thursday, December 5, 2024

Meeting: List of participants noted on last page

<p>3:00 p.m. <i>(10 minutes)</i></p> <p><b>Welcome/Meeting Agenda/Land Acknowledgement</b></p> <p>CAP Facilitator</p>	<p>Alexandra Evershed, the CAP Facilitator, welcomed all participants and conducted the Land acknowledgment, introductions, and a safety moment.</p> <p>Note: This meeting was held virtually due to winter weather conditions</p>
<p>3:10 p.m. <i>(5 minutes)</i></p> <p><b>CNL Updates</b></p> <p><b>CNL in the News</b></p> <p>CAP Facilitator and CAP Rachel Chennette, Communications Officer</p>	<p>Rachel Chennette, Communications Officer, provided an opportunity for CAP members to discuss recent news articles and offer insights from a community perspective.</p> <p>Rachel provided an update on the revised draft NPD Environmental Impact Statement (EIS) that was submitted in October.</p> <p>QUESTIONS:</p> <ol style="list-style-type: none"><li>1. Who is the source of the most recent NSDF judicial challenge?</li></ol>
<p>3:15 p.m. <i>(10 minutes)</i></p>	<p>Victoria Shields, Decommissioning &amp; Environmental Specialist, provided an overview of the ODCP Update Timeline. A timeline visual was provided to all participants before the meeting and reviewed in detail as part of the presentation.</p>

<b>ODCP Update Timeline</b>  Victoria Shields, Decommissioning & Environmental Specialist	<b>QUESTIONS:</b> <ol style="list-style-type: none"><li>1. Can major changes to the ODCP be shared with the CAP ahead of time?</li></ol>
<b>3:30 p.m. (30 mins)</b>  <b>Next Land Use Decision Making Workshop - Laundry Pit</b>  Renee Silke, Environmental Evaluation Specialist  Kate Carolan, Environmental Remediation Specialist  David Yuke, Project Leader, Decommissioning and Environmental Remediation	Renee Silke, Environmental Evaluation Specialist, Kate Carolan, Environmental Remediation Specialist, and David Yuke, Project Leader, Decommissioning and Environmental Remediation, delivered a presentation on the Next Land Use Decision-Making Process for the Laundry Pit.  <b>QUESTIONS:</b> <ol style="list-style-type: none"><li>1. What kind of site is the Laundry Pit?</li><li>2. What depth of remediation is needed for different land uses? If 6.5 meters is needed to return the site to Industrial use is that a minimum or maximum requirement or a 'middle of the road' requirement?</li><li>3. Is there a benefit to remediating to a cleaner standard than what is required by each land use?</li><li>4. How big is the site (Laundry Pit) and what is it next to?</li><li>5. Since operations stopped in 1958 - where does the groundwater flow?</li><li>6. Is the Laundry Pit's contamination localized? What are the potential impacts on groundwater?</li><li>7. What is meant by brownfield?</li><li>8. What does upgradient mean concerning the Laundry Pit?</li><li>9. Can you define CNL business needs?</li><li>10. Does "security" refer to access to the site or safety of the site?</li></ol>

<b>4:00 p.m. - Break (5 minutes)</b>	<b>Break</b>																				
4:05 p.m. (55 minutes)  <b>Workshop/Activity</b>  CAP Facilitator and CAP	<p>Alexandra Evershed, Prospectus and CAP Facilitator conducted a workshop with the members regarding the Next Land Use Decision-Making Process for the Laundry Pit. CAP members were asked to rank the following 10 categories (below) from highest impact to lowest and then the group discussed the rankings. The members were also presented with CNL's proposed next land use, and the rationale for its selection. CAP members were asked if they agree with CNL's proposal.</p> <p><b>Categories:</b></p> <table><tbody><tr><td></td><td>1. Public, Indigenous, and other stakeholder views on the future of the site</td><td></td><td>6. Cost (Physical remediation costs and generation of waste; Relative cost between various cleanup targets)</td></tr><tr><td></td><td>2. Goals of the site</td><td></td><td>7. Understanding when the future use is needed</td></tr><tr><td></td><td>3. Environmental, health, and safety risks</td><td></td><td>8. Business needs</td></tr><tr><td></td><td>4. Available technology</td><td></td><td>9. How much time there is for remediation (Taking into account the natural breakdown and decay of <u>radiologicals</u> and if there will be institutional control)</td></tr><tr><td></td><td>5. Security</td><td></td><td>10. Alignment with the Integrated Waste Strategy</td></tr></tbody></table>		1. Public, Indigenous, and other stakeholder views on the future of the site		6. Cost (Physical remediation costs and generation of waste; Relative cost between various cleanup targets)		2. Goals of the site		7. Understanding when the future use is needed		3. 5:00 p.m. <i>(5 minutes)</i>  <b>Closing</b>  CAP Facilitator  Rachel Chennette, Communications Officer	Alexandra Evershed, Prospectus and CAP Facilitator and Rachel Chennette, Communications Officer closed the meeting and reminded members of the dates for the next meetings, March 6, June 5, and September 4, 2025.
---	---

**CAP Members:**

- Gordon Tapp
- Marty Koshman
- Christopher Miller
- Sheilagh Dunn
- Alison Bradley

**Canadian Nuclear Laboratories:**

- Samantha Scott, Manager, Cleanup Function
- David Yuke, Project Leader, Decommissioning and Environmental Remediation
- Rachel Chennette, Communications Officer
- Frank Trzebiatowski, Manager, D&ER Planning
- Victoria Shields, Decommissioning & Environmental Specialist
- Renee Silke, Environmental Evaluation Specialist
- Luc Robitaille, Environmental Remediation Specialist
- Sonja Lindberg, Environmental Specialist
- Jason Chapman, Communications Officer
- Kate Carolan, Environmental Remediation Specialist
